MEGA ADVENTURE
About Mega Adventure

Mega Adventure has become the global leader in bringing adventure experiences to urban communities.

Everything we do is based on our four core values:

- **Motivate** – When we motivate people, we create action – essential for exploring limits and achieving results
- **Explore** – Through exploration, people discover their potential, learn about others and evolve as a team
- **Grow** – Exposure to physical and mental challenges promotes natural development
- **Achieve** – The combination of motivation, exploration and growth creates the optimal environment for achievement
At Mega Adventure, we believe 'fun' is one of the most powerful mediums there is to transfer knowledge. That's why we use the challenge of 'fun' to motivate you to think and achieve.

As you climb, leap, jump – you are ready to absorb experiences and grow.

Founder and Managing Director
THE PROCESS
ITINERARY & ACTIVITY
Team Builder (4-6 hours)

• Split into groups of 4-6 people and working together as teams, you will tackle a series of different problem solving activities

• Icebreaking activities will be followed by ground based team building elements:
  – Traffic Jam
  – Team Shuffle
  – Acid River

• Teams then tackle various aerial challenges on our park:
  – SkyMate: 70 obstacle high ropes course
  – ParaJump: 20m free fall simulator

• Working within specific rules and restrictions, the teams must think through, plan and overcome a number of scenarios as both individuals and as a team
Timeline

1200 – 1230  Opening / Icebreakers
1230 – 1400  Low Elements
1400 – 1530  Aerial Activities (SkyMate, ParaJump)
1530 – 1600  Closing / Debrief

* Timings may be adjusted according to requirements
A good way to get to know your teammates better and to warm-up for the challenges ahead:

Our professional facilitator will run through the day’s events. Teams are encouraged to share any objectives, and their thoughts on how they can achieve them.

**Icebreaking**

Fun

Teamwork

Strategy

Resilience
Low ground activities challenge groups to work together and support each other to complete the tasks. Teams can look forward to fostering their communication and team dynamics during the hands-on experience.

Activities include:

• Traffic Jam
• Mohawk Walk
• Team Shuffle
• Acid River
Aerial Activities

Navigate the course as a team. Earn points based on the teams’ performance across the activities. Identifying teammates’ strengths is key for optimum performance.
Example Activity: Row your Boat

As a pair, get your role play on! Be prepared to bring your singing voice, and don’t forget the actions!
Example Activity: Totem Tennis

Working in pairs, can you achieve a 10 shot rally in order to maximise your points scoring chances?
ParaJump

A 20m free fall simulator – the ultimate challenge for building self-confidence!
Debrief

Teams gather at the end of the program to share their experience – what they have learnt, what they felt, and what they can take away from the day’s events.
PROGRAM PREPARATION
FAQ’s

**Attire**
We recommend you wear appropriate sportswear such as clothes that are not too loose and baggy. You are also encouraged to cover your shoulders, waist and thighs so that the harness can be as comfortable as possible. All climbers must be wearing closed-toe shoes such as sports or walking shoes.

**Weather**
Activities are still good to go in light weather conditions (rain/haze). If it is wet or rainy you will still have loads of fun exploring, however, you may want to wear a waterproof jacket.

**Baggage**
Lockers and water is provided at the park.

**Safety**
Safety is our absolute, number one. All guests wear the correct harness and safety gear and are given a full briefing before they access the SkyMate. All of our crew are fully trained and have the appropriate qualifications to support climbers as they explore.
Our Kiosk

Perfect for winding down after our activities. Grab some food & drink from our fully licensed café on the park and swap war stories from your aerial adventure with us!
